# CSR Activities

	Mode of Implementation/Party	Sector	Project Name	Description	Location
1	Anandji Haridas - Direct	Healthcare including preventive Healthcare	The National Cancer Grid (NCG), an initiative of Tata Memorial Centre for Cancer Care	The National Cancer Grid (NCG), is an initiative of Tata Memorial Centre, approved by the Dept of Atomic Energy and is the largest network of cancer centres (290+) which was established in 2012 with the mandate of ensuring uniform standards of cancer care across the country. The aim was to enable the patient to receive the best care closer to their home to reduce the treatment abandonment and financial burden. NCG also provides specialized training and education in oncology and facilitates collaborative basic, translational and clinical research in cancer. Close to 300 cancer care institutes, organizations pan-India which are members of the NCG, which strive towards uniform cancer care for all cancer patients across India. Between all these centres- 60% of all patients with cancer in India are treated (750,000 new patients annually). Support towards NCG has impacted lives not only at Tata Memorial but across India.	Mumbai, Maharashtra
